

**Course: Occlusal Analysis**

**In Office Hands-On Courses  
In  
Occlusal Analysis  
For  
Occlusal Correction/Mandibular Reorientation**

**Goals:**

Learn to recognize the signs and symptoms of malocclusion and the causes and effects on the patient. In the course you will learn the step by step procedures of collecting diagnostic occlusal data from the patient and transferring that information to an articulator. The occlusal correction of the mounted casts of the patient will enable you to have an occlusal correction prescription to take to the chair.

**Course: Attendees: 4  
Dates: Saturday  
Time: 7am to 4pm  
CE credits: 8  
Fee: \$400**

**The attendees will use each other as the patient thereby you will learn by doing. All materials will be provided by the course. Literature review articles will be handed out to attendees.**

**“Learn by doing”**

**–Dr. Charles Stuart**
